Notice To Purchasers

Guarantee

. . . . All stock is sold and warranted true to name on the sole and express condition, that should any prove untrue, it will either be replaced with the genuine variety, or purchase price refunded.

Remittances

. . . . Can be sent by Express Money Order, Post-office orders, registered letters or drafts on Chicago, St. Louis or New York. Private checks cannot be received at par, as they cost us on an average of 25 cents to collect.

Prices and Quantities

. . . . Our prices will be found upon examination to be about as low as reliable stock can be offered at. REMEMBER that our Plants and Vines are about double the ordinary size and value, and must not be compared with cheap plants. We claim to pay out as much money for labor and cultivation on one acre of ground as the average nurseryman spends on five or ten acres.

Packing

. . . . All articles will be carefully labeled and packed in moss, with special care taken to have goods arrive in the best condition—no charge being made for boxes, packing or cartage. In all cases we pack goods in good order, take the Express or Railway company's receipt for them, and then our responsibility ceases.

Strawberry Package

. . . . We have adopted a special package for strawberry plants, which is an open crate which holds 1,000 good, large plants. We pack in layers with moss between, which makes a cool package and insures perfect transportation long distance without heating, and is very easy to handle.

Have made shipments to the Atlantic and Pacific coast with entire success.

. . . . All plants and trees grown on virgin soil and free from disease. For choice trees and plants, carefully selected, reared and properly packed, at reasonable rates, we solicit correspondence, and believe we can please any intelligent grower.

. . . . Our money is invested in the propagation of plants and trees and not in expensive catalogues or advertising.

. . . . When trees and plants are received, dip in water, then bury the roots in moist shady ground until planted.

Our Plants are Well Rooted and Will do Well. Try Them!

Our Soil

IS THE HOME
OF THE

Strawberry

Our Plants are the BEST, if not Priced the Cheapest.

Taking all things into consideration, our plants ARE the Cheapest.

Why?

First—They are double the size of ordinary plants. •

Second—They are well packed to insure them from heating in transit.

Third—They are dug the day they are shipped.

Fourth—They are taken from beds set the previous spring especially for plants.

Fifth—We only ship such plants that we would be pleased with if we were buying.
